

RÜTZ® FOR CLEAN LABEL

Transparently Delicious®

PRODUCT HIGHLIGHT

Rütz® plant-based portfolio utilizes essences and extractives to provide a clean label option that offers the consistent and complex taste profiles desired of natural flavors with full transparency.

Crafted by nature, Rütz® plant-based taste options are designed to provide the ingredient transparency that modern consumers desire without compromising on taste. This innovative portfolio provides you more labeling options allowing your brand to feature transparency with ingredient declaration.

TRANSPARENCY

The food and beverage industry regulations for natural and organic continue to evolve. Consumers are demanding label information that they can understand or recognize. Natural flavors as an ingredient has been growing rapidly over the years to replace synthetic flavors. Additionally, the use of flavor extracts and essences has increased recently to clarify the source of the flavor.

To provide an additional level of transparency and options for labeling, the Rütz® portfolio is formulated with a transparency statement that provides our customers with the expanded ingredient details.

At Flavor Producers, we have developed a portfolio of natural and organic flavors to meet the increasing consumer demand for transparent label options. The Rütz® line offers more options for this portfolio to optimize taste and provide transparency.

CLEAN LABEL

Flavor producers offers a Transparency Statement for each of our Rütz® products to provide our customers with more information so they can provide consumers with greater transparency.

TRANSPARENCY LABEL EXAMPLE:

Organic Mango Flavor WONF Rütz®

Transparency Statement

Natural flavor contains extractives of the following: sugarcane, sweet potato, castor bean, apricot, Japanese pagoda tree, rosewood, gardenia, bucha, and pennyroyal

Organic flavor contains extractives of the following: mango and orange
